OPEN PUBLICITY THE BEST GUARANTY OF MERIT.

When the maker of a medicine, sold through druggists for family use, takes his patients fully into his confidence by frankly and fearlessly publishing broadcast as well as on its bottle wrappers, a full list of all its ingredients in plain Employ, this action on his part is the best possible evidence that he is not afraid to have the search light of investigation turned full upon his formula and that it will bear the fullest scrutiny and the most thorough investigation. Dr. Plerce's Favorite Prescription for the cure of the weaknesses, periodical pains and functional derangements of the organs distinctly feminine, is the only medicine put up for sale through druggists for woman's special use, the maker of which is not afraid to take his patients into his full confidence by such open and honest publicity.

is not afraid to take his patients into his full confidence by such open and honest publicity.

A glance at the published ingredients on each bottle wrapper, will show that it is made who'ly from native, American, medicinal roots, that it contains no poisonous or habi-forming drugs, no narcoties and no alcohol—pure, triple-refined glycerine, of proper strength being used instead of the commonly employed alcohol, both for extracting and preserving the active medicinal properties found in the roots of the American forest plants employed. It is the only medicine for women's peculiar diseases, sold by druggists, that does not contain a large percentage of alcohol, which is in the long run so harmful to woman's delicate, nervous system. Now, glycerine is perfectly harmless, and serves a valuable purpose by possessing intrinsic value all its own, and besides it enhances the curative effect of the other ingredients entering into the "Favorite Prescription."

Some of the ablest medical writers and teachers endorse these views and praise all the several ingredients of which "Favorite Prescription" is composed—recommending them for the cure of the very same diseases for which this world famed medicine is advised. No other medicine for women has any such professional endorsement—worth more than any number of ordinary testimonials. If interested, send name and address to Dr. R. V. Pierce, Buffalo, N. Y., for his little book of extracts from the works of eminent medical writers and teachers, endorsing the several ingredients and telling just what Dr. Pierce's medicine; are made of. It's free for the gasking.

A special session of the Circuit Court for Somerest county was called at Princess Anne, Md , yesterday morning at 10 o'clock for the purpose of finding an in-dictment against William Lee, the negro who committed a felonious assault upon Mrs. Robert H. Barnes and Miss Franes Powell, of Kingston, on Sunday,

The jury after being out 30 minutes, ound a bill of indictment. By 7 o'clock esterday morning there were 800 or more persons in town, and by 10 there were over 1,500. When the court was called a rush was made for the court-house, and it was soon filled. There was no demonstration or disorder, but nuch indignation by the throng when t was learned that Lee was not to be brought to Princess Anne yesterday, and Judge Page and Sheriff Brown were censured for not having Lee brought to omerset for trial.

The crowd, though orderly, went to Princess Anne determined to lyach Lee, and in the afternoon it was said a re quest was to be made by Judge Page for Desirable Property Wanted For him to produce Lee without further de-

Fight on a Scaffold.

The spectacle of two men locked in a esperate struggle on a narrow scaffold swung at the level of the seventh story, attracted a great throng in front of the unfinished Sinton Hotel building at Fourth and Vine streets, Cincinnati, yesterday afternoon. Every second it look-ed as if one or both of the men would be pitched to destruction, as several times their feet hung over. They fought back and forth along the wall for several minutes until one was seen to pull his knife, and open it with his teeth. He disabled his opponent with it by inflict-ing a vicious gash across the arm. The The cutting put an end to the struggle. The wounded man, Joseph Connelly, a brick-layer, said that he reprimanded his ad-versary, Hugh Williams, a hod carrier, for carelessness in dumping his load of bricks. He threw them down so heavily he feared the jur would cause the planking to give way and send them both to their death. The reprimand led to a wordy altercation, then an exchange of blows and the man-to-man struggle. Williams was arrested on a charge cutting and Councily was taken to the

city hospital. Horrors of Bialystok.

The tales of atrocities committed in Biavatok, Russia, recently are innumerable the victims. Strips of flesh were cut from their bodies, children were snatch ed from their mothers' arms and taken by the legs and brained on the pave-ment before the eyes of their parents. An old Jew was beheaded, and the ghastly traphy was carried all day at end of a pike through the streets. In many cases the heads of victims were beaten to a jelly with stones. At the Bialys-tok railroad station, where the mob scarched the trains for Jews, a rioter scarched the trains for Jews, a rioter seized a five-year-old girl by the throat and held her at arm's length until she strangled to death. Little children seemed to take pleasure in pointing out
